

Labor Day 5k draws a crowd

On Labor Day, hundreds of runners and walkers participated in SEFCU's 27th Annual Labor Day 5k.

Once again, SEFCU held a public vote to determine which non-profit received \$15,000. After the results were counted **Veterans Miracle Center** received the highest number of votes. The non-profit with the second highest votes and receiving \$3,000 was **STRIDE Adaptive Sports – Wounded Warrior Programs**, and **Operation Adopt a Soldier** finished third and received \$2,000.

The top male finisher in the race was **Chuck Terry**. The top female finisher was **Meghan Mortensen**.

Thanks to everyone who participated. See you next year!

Special thanks to our Platinum Partners

SEFCU INSURANCE AGENCY

Income protection is another word (or two) for life insurance

In addition to safeguarding your family's financial future, life insurance also protects your income. If you're the bread winner in the house and you pass away, the income you bring in that supports your family is lost as well.

When you die, the amount of life insurance you carry may, in essence, be your final paycheck. It is just one check, sure, but it's possible it'll need to last your family the rest of their lives.

Most of us would do anything to protect our kids and family, yet so many of us put off owning life insurance. Why? Do we think it will be too expensive? Maybe, but the fact is a healthy 40-year-old non-smoker could buy a \$500,000 life insurance policy, with a 20-year level premium, for less than \$30 a month.

Of course, life insurance cannot ever replace the loss of a father, mother, wife, or husband. It can, however, replace their economic value, and it can do so for peanuts when compared with what we routinely spend on other types of insurance. At today's record low rates, doesn't it make sense to make sure your income is protected and your family is financially secure?

accuQuote™
